L. TESTES/OVARIES Maroon/Vitality

This is one of the two organs that in the female body is physically different to that in the male body. They give us vitality, regeneration, great/class and luxury.

Humans can convert the biological urge to produce offspring into liberation of the spirit, from the confines of the body.

The testes/ovaries change electricity into light energy, which produces pleasure.

In the negative it results in nervous breakdown.(the ego destroys the body) dementia preacox (just because you get a loose screw now and then, doesn't mean you are loony), impotence (always give the wheel another turn before you curse your luck) and menopausal reaction (she is glad to do it less and he only wants a little).

The Tarot card is the Emperor in the Ryder Waite deck and the Rebel in the Osho Zen deck. In the Left Eye the cards are the eights and the circuit checks with the stomach and the spinal base. Without friendship and trust, low vitality.

The most common illusion (8 cups) is that I can't vibe with the people around me so every 12 days I consider going somewhere where there are kindred spirits; like Maui, Byron Bay, Poonah, Amsterdam or Bali!

The points on the body in the male are middle of front skull, chin, mid pubic bone and inside left ankle. In the female the right side of the nose and above the elbows are in the circuit.

Creatures are the lion in the positive and the hyena in the negative. A country is Scotland.

The Chi Chi points on the body are: L- Front middle skull and vertebra L2, O- Below the eyes, W- Right breast, L- Inside left wrist.

During this Chi Chi of the reproductive organs luxuriate in the light that comes through them.
